Letter of Recommendation: Clay Moser

To Whom It May Concern:

It is my pleasure to write a letter of recommendation for Clay Moser as a Basketball Consultant and Advisor.

I have had the opportunity to interact with Clay for over twenty years in the basketball world during his time in the CBA, as a member of the USA Basketball Board of Directors, during his time in the NBA and during his time in college basketball. Although, it was not until Clay spent a week this past August with the USA Basketball World Cup Qualifying Team Coaching Staff that I gained a full appreciation of his basketball experiences and knowledge.

The attention to detail and advanced knowledge of the game he was able to articulate during the coaching staff discussions was very impressive. His ability to observe the coaching staff strategy conversations and provide appropriate advice as well as thought provoking comments was incredibly helpful to the other coaches.

There is no question in my mind that Clay's demeanor, knowledge of the game and multiple levels of experience would have a significant impact on a coaching staff looking to learn, improve and develop a coaching philosophy for their team.

Best regards.

Sincerely,

Sean Ford
Men's National Team Director
